

**IMPORTANT: This is a fixed indemnity policy,
NOT health insurance**

This fixed indemnity policy may pay you a limited dollar amount if you're sick or hospitalized. You're still responsible for paying the cost of your care.

- The payment you get isn't based on the size of your medical bill.
- There might be a limit on how much this policy will pay each year.
- This policy isn't a substitute for comprehensive health insurance.
- Since this policy isn't health insurance, it doesn't have to include most Federal consumer protections that apply to health insurance.

Looking for comprehensive health insurance?

- **Visit [HealthCare.gov](https://www.healthcare.gov)** or call **1-800-318-2596** (TTY: 1-855-889-4325) to find health coverage options.
- To find out if you can get health insurance through your job, or a family member's job, contact the employer.

Questions about this policy?

- For questions or complaints about this policy, contact your State Department of Insurance. Find their number on the National Association of Insurance Commissioners' website (**[naic.org](https://www.naic.org)**) under "Insurance Departments."
- If you have this policy through your job, or a family member's job, contact the employer.

BENEFITS

Protection for hospital stays when a sickness or injury occurs

Hospital Indemnity Insurance

Life is unpredictable. Without any warning, an illness or injury can lead to a hospital confinement and medical procedures and/or visits, which may mean costly out-of-pocket expenses.

Expenses associated with a hospital stay can be financially difficult if money is tight and you are not prepared. But having the right coverage in place before you experience a sickness or injury can help eliminate your financial concerns and provide support at a time when it is needed most.

Allstate Benefits offers a solution to help you protect your income and empower you to seek treatment.

Here's How It Works

Our Hospital Indemnity insurance pays a cash benefit for hospital confinements. This benefit is payable directly to you unless assigned, and can keep you from withdrawing money from your personal bank account or your Health Savings Account (HSA) for hospital-related expenses. It is increasingly important to not only protect your finances if faced with an unexpected illness, but also to empower yourself to seek the necessary treatment.

Meeting Your Needs

- Guaranteed Issue coverage without a Pre-Existing Condition Limitation*
- Coverage also available for your dependents
- Premiums are affordable and are conveniently payroll deducted
- Coverage may be continued; refer to your certificate for details

With Allstate Benefits, you can feel assured that you have the protection you need if faced with a hospitalization. **Practical benefits for everyday living.**[®]

Meet Tommy

Tommy's parents are like most parents; they worry about the health and well-being of their family. They know that as Tommy grows he will become more active and may be hospitalized due to a sickness or injury. Most importantly, they worry about how they will pay for it.

Here is what weighs heavily on their minds:

- Major medical only pays a portion of the expenses associated with hospital stays
- They have copays they are responsible for until they meet their deductible
- If they miss work due to Tommy having a hospital stay, they must cover their bills, rent/mortgage, groceries and education expenses
- If the right treatment is not available locally, they will have to travel to get the treatment he needs

Tommy's story of sickness and a hospital stay turned into a happy ending, because his parents had supplemental Hospital Indemnity Insurance to help with expenses.

CHOOSE

Tommy's mother chooses benefits to help protect herself and her family members, should they suffer an illness or injury that requires a hospital stay.

USE

Tommy was sick and vomiting, had a loss of appetite and a fever, and complained about a pain in his side. He was also unable to get out of bed.

Here's Tommy's treatment path:

- Taken by ambulance to the emergency room
- Examined by a physician
- Multiple tests were performed
- Admitted for a two-day hospital stay
- Underwent emergency appendectomy surgery
- Visited by his doctor and released
- Recovered from surgery in 5 weeks
- Seen by the doctor during a follow-up visit

Tommy's mother went online after Tommy's hospital stay to file a claim. The cash benefits were direct deposited into her bank account.

Tommy is fully recovered and back to normal.
