Treatment for common conditions

You can narrow your search to primary care providers or look up physicians by specialty. Then select a physician from your search results to learn more about where they went to school, where they practice and how to schedule an appointment.

Check for quality

The two blue hearts next to a doctor's name tells you they are a Premium Care Provider who has been reviewed by UnitedHealthcare and meets quality standards for delivering cost-effective care.

You may also see star ratings for customer satisfaction based on reviews from previous patients.

Understand the costs

Different providers may charge different amounts for the services they offer. Your search results will give you a range of the average costs for preventive care or medical procedures in your area. And the individual provider listings show whose costs are below, above, or meet the local average.

If a procedure typically includes multiple steps of treatment, you can review the total cost and your estimated out-of-pocket cost for each step. So you'll know what to expect, from start to finish.

Your estimated out-of-pocket costs are personalized to you, based on your own benefit plan's deductible, annual out-of-pocket max, co-pay, co-insurance and how much you've paid toward your deductible.

Looking for an urgent care center?

It is important to note that urgent care centers may not be listed in the provider directory. Your UHC network is contracted with a variety of health systems (such as Aurora, Froedtert/MCW, Children's Hospital). However, if a particular health system that provides urgent care treatment does not meet the legal licensing requirements for urgent care, those centers are not categorized as urgent care and will not show up as such when searching.

The best thing to do in this situation is to verify the health system is in your network, and then visit the provider website (or contact them directly) to find locations that offer urgent care or walk-in services.*
