My pharmacist, Lauren, was very thorough, patient, knowledgeable and listened intently to my explanations. It is very comforting to have another "set of eyes" on the prescriptions I have to take, knowing how ALL of them interact with each other. Thank you!

I was hesitant about using TRIA, but after speaking with the pharmacist and customer service, I'm very impressed with their genuine concern about my well being and ensuring proper pricing on prescriptions. The cost savings were really amazing. Thank you.
