

Your Retirement Plan Account App

Easy access at your fingertips

Download the NWPS app to access your account while you're on the go.

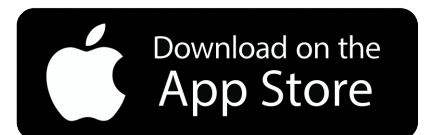

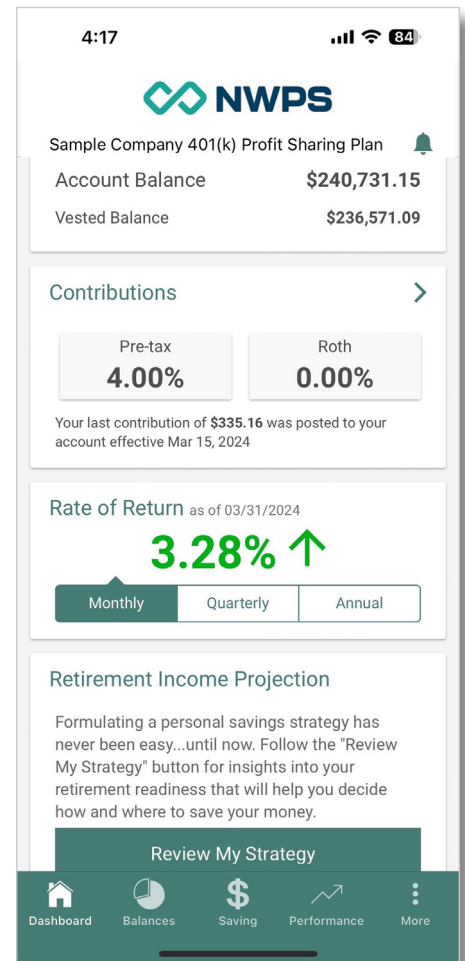

If you'd like to access your account, the NWPS mobile app can help. Just search for "NWPS" in either the [Apple App](#) or [Google Play](#) store.

With the app, you can see:

- a quick overview of your account – your balance, contributions¹ and rate of return – in the Dashboard.
- your investment options and details like share price and how many shares you have.
- contributions by source, such as your pre-tax and after-tax contributions and your employer's match (if you receive one).
- how your investments are performing.
- a personalized retirement readiness tool that shows you how you stand in comparison to your retirement goal and lets you make changes to your contributions, investments and retirement age. The tool automatically updates with any changes. It also offers interactive, financial wellness education.²

¹If your plan allows it, you can even change your contributions.

²If your plan offers this tool. Features within the tool may vary depending on your plan.
