

Using your preventive benefits

YOUR PREMIERA BLUE CROSS PLAN PAYS IN-NETWORK PREVENTIVE SERVICES IN FULL

You'll get the most value from these benefits by choosing a doctor in your plan's network. Getting timely preventive care is one way to detect potential health issues before they become serious and possibly expensive to treat.

So take advantage by following these simple steps:

- 1 Schedule your annual exam and vaccinations with your doctor right away!
- 2 When you make your appointment, be sure to tell the scheduler that you want a preventive exam.
- 3 Bring this flyer with you to show your doctor what's considered preventive and covered in full under your medical plan. Talk with your doctor about preventive services that are right for you.

Keep in mind

During your visit, your doctor may find a problem that needs more screening or tests to pinpoint the issue. Also, if you manage an ongoing health issue, your doctor may run further tests. Screenings and tests that diagnose or monitor your condition are not preventive services and are subject to your annual plan deductible and coinsurance. Recommended age and frequency of preventive services varies.

If you have any questions about your preventive coverage, call the customer service number on the back of your member ID card.

For more specific information about your coverage and guidelines, see the back of this brochure.
