

Caring for the whole you

At Kaiser Permanente, mental health care goes hand in hand with all the care we provide.

Primary care

As a member, you can talk to your primary care doctor about any mental health issues, anytime. They'll also do mental health and substance use screenings and help you with next steps if you need support.

Specialty care

If you're already getting care through a specialty or emergency department, your care team can connect you to the right resources. No referral is needed to make an appointment with a mental health care professional.

Many ways to get care

Whether you need help with depression, stress, or addiction issues, you can connect with a mental health professional when and where it works for you.
