Portfolio Medium Formulary

What is the Standard Formulary?

The MedImpact formulary is a list of covered drugs selected by physician and pharmacist subject matter experts who collaboratively support MedImpact's Pharmacy and Therapeutics (P&T) Committee. The plan will cover drugs listed in the formulary if the drug is indicated for the clinical condition, is prescribed in the appropriate manner, the prescription is filled at a participating network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary (drug list) change?

Drugs may be added or removed from the formulary during the year. The plan will notify affected members if a drug is removed from the formulary, moves to a higher cost-sharing tier, or when prior authorization, quantity limits and/or step therapy requirements are added. Members are notified before the change becomes effective. If the Food and Drug Administration (FDA) deems a drug on the formulary to be unsafe or the drug's manufacturer removes the drug from the market, the plan will immediately remove the drug from the formulary.

Is the member's medication included in the formulary?

There are 3 ways for a member to confirm their current medication is on their plan-specific formulary:

- **Drug Categories**
The drugs in this formulary are grouped into categories according to the types of medical conditions they are used to treat.
- **Alphabetical Index Listing**
If the member is not sure what category to look under, the member should look for the drug in the Index. The Index provides an alphabetical listing of all drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. First, look in the Index and find the drug. Next to the drug, there is a page number where the member can find coverage information. Turn to the page listed in the Index and find the name of the drug in the first column.
- **Website or Mobile App**
Drug search capability is on the MedImpact Consumer Portal (MedImpact.com), mobile app (available in Apple and Google apps store), or member plan's website.

What are generic drugs?

The plan covers both brand name and generic drugs provided they are prescribed per FDA approved indications and in accordance with the plan's benefit design. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs. Generic drugs appear in the formulary listing with all lower-case letters and *italicized* (i.e. *terbutaline oral tablet 2.5 mg*). Brand drugs appear in formulary listing with all upper-case letters (i.e. DIPHEN ORAL ELIXIR 12.5 MG/5ML).

Portfolio Medium Formulary

Are there any restrictions on coverage of drugs on the formulary?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits are noted throughout the Formulary listing using the following symbols:

Symbol	Guideline	Description
AGE	Age Restriction	Coverage depends upon member age
PA	Prior Authorization	Requires specific physician request and clinical criteria be met for prescription to be covered
QL	Quantity Limit	Prescription quantity limits for specific drugs and/or time period needed for coverage
ST	Step Therapy	Coverage requires a trial of certain clinically appropriate alternative drug(s) before obtaining the prescribed drug
SP	Specialty Drug	Coverage may require dispensing from a specialty pharmacy. Specialty copay/coinsurance applies according to benefit plan

The member can ask the plan to make an exception to these restrictions or for a list of other, similar drugs that may treat their health condition. See the section: "How does a member request an exception to the formulary?"

Tier Benefit Design

A tier benefit design is where a member is responsible for a portion of the cost of a prescription drug based on the drug's tier and copayment or coinsurance. Specialty drugs may be covered at a higher copay or coinsurance. Per the Affordable Care Act (ACA), some medications qualify as preventive under the Essential Health Benefit (EHB). If available on the plan, EHB medications will be covered without cost share (\$0 copay for members). The following is an example of a formulary tier design:

- Tier 1: Generic medications
- Tier 2: Preferred brand medications (formulary agents)
- Tier 3: Non-preferred brand medications (non-formulary agents)

General Exclusions:

Many plans have specific benefit inclusions, exclusions, copayments, or a lack of coverage, which are reflected in other Plan Benefit Documents.

The Formulary applies only to outpatient drugs provided to members and does not apply to medications used at inpatient settings. If a member has any specific questions regarding their coverage, they should contact their plan. Examples of benefit exclusions include:

M Portfolio Medium Formulary

- Over the Counter (OTC) medications
- Anti-Obesity drugs
- Medical food/nutritional supplements
- Non-Diabetic supplies/Diagnostic supplies/Ostomy supplies/Devices
- Disposable Needles & Syringes (Non-Insulin related)
- Any drug products used for cosmetic purposes
- Experimental drug products or any drug product used in an experimental manner
- Repackaged drugs and institutional use drugs (e.g., hospital use)
- Lifestyle drugs (e.g., sexual dysfunction, infertility)
- Non self-administered injectable drug products

What if a drug is not on the Formulary?

If a drug is not included on the formulary, the member should contact the plan. If the member is informed the plan does not cover the drug, the member has two options:

1. The member can ask the plan for a list of similar drugs covered by the plan. When the member receives the list, they should show it to their doctor and ask the doctor to prescribe a similar drug that is covered by the plan that is determined by the doctor to be an appropriate alternative drug.
2. The member can ask the plan to make an exception and cover the drug.

How does a member request an exception to the Formulary?

The member will need to contact the plan for details on how to file an exception request.
