

IMPROVE YOUR HEALTH & SAVE MONEY

Tria Health has partnered with Consolidated Communications to provide you with free, confidential conversations with a Tria Health pharmacist over the phone. Tria Health's pharmacists are your personal medication experts and work with you and your doctor(s) to make sure your conditions are properly controlled without the risk of medication-related problems.

I appreciate the interaction with Tria Health because I feel like it helps to keep you on track with your health and your doctor. They found one unnecessary medication and saved me a ton!

I would recommend Tria Health's Pharmacy Advocate program for the cost-saving benefit alone, after one visit the pharmacist found a less expensive switch for one of my meds. Every little bit helps!
