

# Limited-Purpose Health Care Flexible Spending Account

## What is a Limited-Purpose Health Care Flexible Spending Account?

A Limited-Purpose Flexible Spending Account (LPFSA) allows you to set aside money from your paycheck pretax to pay for out-of-pocket **dental and vision care** expenses. When you pay less in taxes, you have more money in your pocket. Most people save at least 30% on each dollar set aside pretax. To be eligible for the LPFSA you, or your spouse, must be enrolled in a qualified high-deductible health plan (HDHP) as defined by the IRS and have contributions to an HSA.

## How does it work?

If you are enrolled in a HDHP with a Health Savings Account (HSA) into which you or your employer contributes, you can sign up for a LPFSA. This means you can participate in **both** an HSA and a LPFSA in order to maximize your tax savings.

## What expenses are eligible?

While your HSA can be used to pay all types of health care expenses, LPFSA funds can be used to pay for dental and vision expenses as follows:

- **Dental** Cleanings, x-rays, fillings, crowns, bridges, dentures, implants, orthodontia, mouth guards, prescriptions for dental care, etc.
- **Vision Care** Eye exams, eyeglasses, prescription sunglasses, over-the-counter reading glasses, contact lenses and solution, laser eye surgery, prescriptions for vision care, etc.

Plan carefully to preserve the value of your HSA by using your HSA funds as way to save and invest for future health care expenses. Then, just use your LPFSA to pay for current year dental and vision care expenses.
