

What is a Healthcare FSA?

A flexible spending account is an employer-sponsored benefit that allows you to pay for eligible medical expenses on a pre-tax basis. If you expect to incur medical expenses that won't be reimbursed by another plan, FSAs are a great way to save money while covering those costs.

How Does It Benefit Me?

An FSA saves you money. The contributions you make to an FSA are deducted from your pay before your federal, FICA and state taxes are calculated and are never reported to the IRS. The end result is that you decrease your taxable income and increase your spendable income. You can save hundreds.

Federal Tax Rate	Annual FSA Contribution	Annual Tax Savings*
15%	\$1,550	\$429
15%	\$2,750	\$760
25%	\$1,550	\$584
25%	\$2,750	\$1,035
33%	\$1,550	\$708
33%	\$2,750	\$1,255

*For illustrative purposes only. Savings calculations are based on the federal tax rate listed in the table, a state tax of 5%, and 7.65% FICA. Your tax situation may be different. Consult a tax advisor.

Save on predictable healthcare expenses.

How a Healthcare FSA Works

Flexible spending accounts (FSAs) reduce your taxable income by setting aside pre-tax dollars to pay for eligible healthcare expenses.

You can contribute up to \$2,750 annually to your flexible spending account. This annual election amount will be deducted evenly out of each pay check on a pre-tax basis and put into your FSA. You can then use the funds to pay for eligible expenses. Changes to the annual election amount are only permitted due to a change of status such as marriage or birth of a child.

A big perk to an FSA is that it is pre-funded, meaning that you will have access to your full annual election amount at the very beginning of the plan year, regardless of the amount contributed to date. That is like having a tax-free, interest-free loan to help you pay for healthcare expenses. So go ahead and schedule that laser eye surgery in January!

Your plan may allow for a maximum of \$550 of unused funds to be rolled over to the next year. The rollover amount can be used to pay or reimburse healthcare expenses incurred during the entire plan year to which it is carried over.
