

Emergency Evacuation Meeting Spots

If there was an emergency evacuation do you know where you should go to be safely accounted for? What if you were at another City building? This document will help city employees know where to meet in case of an emergency evacuation of a building. These meeting points are a pre-selected point where city staff should meet. Why are these important? It is to make sure all employees can be accounted for and ensure no one is left in the building.

City Hall

Recognize this? It is the sculpture located on the North side of the building in City Hall Square. City Hall employees should meet here.

Fire Department

Meet at the flag pole located at the northwest corner of the property. Get out safely and leave the emergency response to the professionals!

Parks & Recreation Department

Find the safest way to get to the gate at the back entrance of the building.

Police Department

Just like if you were at City Hall, if you are at the Police Department, you will also meet at the sculpture located in City Hall Square.

Public Works

The designated meeting area at Public Works is the lawn directly located outside of the public entrance of the building.

Civic Arena

Find the safest exit and make your way to the fire hydrant at the east end of the parking lot. Make sure to keep clear if the hydrant is needed though.

Aquatic Center

Exit the Aquatic Center through the gate located at the southeast corner of the fence and walk into Roadside Park. Meet in the pavilion located within the park.
