[Name Your Beneficiaries](#)

Establish the recipients of your HSA in the event of your death.

[Contribute to Your Account](#)

If you haven’t already you will need to choose an amount to contribute.

[Learn More About HSAs](#)

Now that you’ve opened your HSA, let’s look at how you can get started using your new savings account.

Please note: you entered your contribution amount when enrolling in ADP. If you select the “Contribute to your Account” option on Fidelity’s web site and enter a different amount, it **will not** override your amount in ADP. Please change your election amount under *Benefits, Enrollments, HSA Change*.

HSA Rollovers from other financial institutions – You are not required to rollover your HSA at another financial institution, so it will not be done automatically. If you wish to roll it over to Fidelity, the option to start the transfer is under the “Contributing” tab for your HSA on Fidelity’s web site.

Transfer from another HSA

Transfer money from an HSA at any time—transfers don’t count toward your IRS limit. Any contributions you made during the year do.
