Prescription & Medical Information

Generic Drugs

Generic drugs are FDA-approved and shown to be just as safe and effective as their more expensive brand-name counterparts. If you choose a brand-name drug when a generic drug is available, you will pay the brand-name copay plus the cost difference between the generic equivalent and the brand-name drug.

Preferred Drugs

ASBAIT regularly reviews the latest prescription drugs on the market and maintains a list of preferred drugs that are clinically effective and not cost-restrictive. These drugs are available at a lower price than those not included on the list, which are called non-preferred drugs.

Specialty Drugs

Specialty drugs are typically used to treat chronic conditions like cancer or multiple sclerosis. These drugs tend to be more expensive and usually require special handling and monitoring. If you take a specialty medication, you could save money by using ASBAIT's mail-order pharmacy.

Mail Order

You can register for mail-order pharmacy by logging on to www.meritain.com.

Terms to Know

- **Copay** - A set dollar amount you pay for a covered health care service, usually when you receive the service.
- **Deductible** - What you pay out of pocket for health care services before the plan begins to pay a portion.
- **Coinsurance** - Your share of the costs of covered health care services after you reach the deductible. You pay the percentage noted in the table above, and the medical plan pays the rest.
- **Out-of-pocket Maximum** - What you have to pay before the plan pays 100% of your covered costs.
- **Network** - The facilities and providers the medical plan has contracted with to provide health care services. In-network providers typically provide services at a lower negotiated rate.

Finding In-network Providers

You save the most money when you choose in-network doctors, facilities and pharmacies. Log on to www.meritain.com or call 800.762.2234 to find providers in the ASBAIT network.

Medical Coverage

How the Plans Work

The medical plans use the Banner|Aetna network and cover 100% of the cost for in-network preventive care services like annual physicals and routine immunizations. The way you pay for care is different with each plan.

With the **HDHP-A with HSA**, you pay the full negotiated cost for medical services and prescription drugs until you meet your annual deductible. After you meet the deductible, you and the plan share the costs (coinsurance) until you reach the annual out-of-pocket maximum. After that, the plan pays for 100% of your claims for the rest of the year. Your paycheck deductions for this plan are lower than the other plans. Additionally, when enrolling in this plan you have access to the Health Savings Account (HSA) to save and pay for medical costs not covered by your medical carrier. Catalina Foothills will contribute a monthly amount to the Health Savings Account. You may also contribute funds pre-tax through payroll deduction.

The **Gold plans** offered have set copays for some services and a deductible and coinsurance for others. Copays do not apply toward your deductible, so you will pay copays until you reach your annual out-of-pocket maximum. These plans have higher paycheck deductions than the HDHP-A with HSA.

	HDHP-A with HSA	Gold plans

Annual Out-of-pocket Maximum	Highest	Highest

Health Savings vs Flexible Spending Accounts

Paying for Health Care

Catalina Foothills School District #16 offers several ways to set aside pre-tax dollars to pay for medical, prescription drug, dental and vision care expenses. The accounts available to you depend on the medical plan you choose.

	Health Savings Account (HSA)	Health Care Flexible Spending Account (FSA)
What medical plan can I choose?	HDHP	PPO plan
What expenses are eligible?	Medical, prescription drug, dental and vision care (See IRS publication 502 for a full list of eligible expenses)	
When can I use the funds?	Funds are available as you contribute to the account	All funds you elect for the year are available July 1st
Can I roll over funds each year?	Yes, funds roll over from year to year and are yours to keep (even if you leave your employer or retire)	For employees currently enrolled in the FSA there is a \$660 balance carryover
How do I pay for eligible expenses?	With your Health Equity through ASBAIT Health debit card (you can also submit claims for reimbursement online at www.healthequity.com)	With your ASIFlex debit card (you can also submit claims for reimbursement online at https://asiflex.com)
How much can I contribute each year?	\$4,300 for individual coverage or \$8,550 for family coverage (this total includes employer funding) in 2025*	You can contribute \$3,300 to your health care FSA in 2025
Can I change my contributions throughout the year?	Yes, you can change your contribution amount any time during the plan year; subject to the annual limit.	No, unless you have a qualifying life event, you choose an annual election amount during open enrollment and that amount is taken out of each paycheck in equal increments throughout the year

Note: If you are enrolled in Medicare, by law you are not allowed to contribute to an HSA.

*You may contribute an additional \$1,000 if you are age 55+

What Are the Tax Implications of an HSA?

Contributions to your HSA reduce your taxable income, and qualified medical expenses are never taxed. All money set aside in an HSA grows tax-deferred until age 65, when funds can be withdrawn for any non-medical purpose at ordinary tax rates, or tax-free when used for medical expenses. You may contribute additional funds to your HSA (\$1,000 per tax year) if you will be 55 years or older by December 31. Learn more at

www.healthequity.com.

<https://c2mb.ajg.com/cfsd16/>

Limited Purpose Flexible Spending Account

Additional way to save for dental and vision care for HDHP A Plan enrollees

In addition to contributing to a Health Savings Account, you may also contribute pre-tax dollars into a limited purpose FSA to pay for eligible dental and vision expenses.

	Limited Purpose FSA
What is it?	An account for HDHP A enrollees to set aside pre-tax dollars from each paycheck to pay for eligible dental and vision expenses. This account is in addition to the Health Savings Account. You may contribute up to \$3,300/year to a Limited Purpose FSA
Why should I consider it?	If you have considerable dental and vision expenses that are larger than the IRS allowance to contribute to the H.S.A., you may contribute to the Limited Purpose FSA to cover those large dental and vision expenses.
What expenses are eligible?	Eligible dental and vision expenses only
When can I use the funds?	Funds are available on July 1st
Can I roll over funds each year?	The Limited Purpose FSA has a \$660 carryover at the end of the year.
How do I pay for eligible expenses?	With your ASIFlex debit card (you can also submit claims for reimbursement online at https://asiflex.com)
How much can I contribute each year?	You can contribute \$3,300 to your Limited Purpose FSA in 2025

Important Note

The Limited Purpose FSA has a \$660 carryover at the end of the year.

Dependent Care Spending Accounts

Paying for Dependent Care

You can contribute pre-tax dollars into a dependent care FSA to pay for eligible child or elderly care expenses.

	Dependent Care FSA
What is it?	An account that allows you to set aside pre-tax dollars from each paycheck to pay for eligible child or elderly care expenses while you and your spouse work full time
Why should I consider it?	You can lower your taxable income to save some money while you take care of your daycare expenses
What expenses are eligible?	Daycare expenses for your children under age 13 or dependents who are mentally or physically incapable of caring for themselves (including elderly dependents)
When can I use the funds?	Funds are available as you contribute to the account with each paycheck
Can I roll over funds each year?	No, you will lose any funds remaining in your account at the end of the year
How do I pay for eligible expenses?	With your ASIFlex debit card (you can also submit claims for reimbursement online at https://asiflex.com)
How much can I contribute each year?	You can contribute \$5,000 to your dependent health care FSA in 2025 if you are married and filing jointly or a single parent

Important Note

The dependent care FSAs have a **use-it-or-lose-it** rule. You will lose any unused funds at the end of the year.
