

EAP BENEFIT

# Daily Living Services

Daily Living consultants can help with finding care for pets, and managing day-to-day responsibilities at home and work. For instance, if you need moving and relocation services, consultants can offer searches for apartments, rental property management companies, real estate agencies, as well as moving companies, storage facilities, and moving truck rental.

Because your to-do list is long enough already, you deserve to benefit from the convenience of having professional Daily Living consultants provide research assistance, resources, information and referrals for the nearly endless resource needs you encounter day-to-day.

We can also provide an eNeighborhood report, which provides detailed information on local demographics, schools, churches, employment, housing, crime, and weather, among other topics. We can also provide referrals for things such as nearby activities, grocery stores, and the local Department of Motor Vehicles.

In addition to these, we can also help with information on the Better Business Bureau and other licensing agencies where you can check for complaints against companies you consider on using. Along with these examples, Daily Living Consultants can also provide information on the following:

 **wellspring EAP**

**your daily living services benefit includes**

unlimited calls and instant messaging for daily living resources or information needs

**1-800-553-7798**
