

Enrolling Effortlessly

SmartInvite is a personalized feature that automates the sign-up process with Payactiv

Benefits of SmartInvite

- ✓ Grants easiest access to Payactiv and digital wallet features
- ✓ Takes the hassle out of finding correct information
- ✓ Utilizes unique link technology via SMS messages

How does SmartInvite work?

Employees receive an SMS message with a customized link unique to them. They will need to enter their Name, Phone Number, and create a password, and they'll get instant access to Payactiv.

SmartInvite is something we're able to deliver at launch, but also for new employees and events such as year-round enrollment drives!

What's so important about SmartInvite?

SmartInvite takes the guesswork out of enrollment, ensures your employees hear about Payactiv, and makes the sign-up process as easy as possible. We've seen up to 15% of work forces discover Payactiv through SmartInvite – that's 15% of your employees who wouldn't have gotten access to much-needed financial support otherwise.

This past year has seen some of the steepest

increases in cost of living that we've seen in decades, with staples like meat, poultry, fish, and eggs increasing by 14% over the past year. Fuel increased 18% in one month alone. Employees need financial stability more than ever.*

What happens if an organization does not implement SmartInvite?

Sometimes sign-ups stagnate, even when Payactiv is first launched. Without the guided experience that SmartInvite provides, employees have more trouble discovering Payactiv, enrolling, and accessing the benefits of the digital wallet.

How can I maximize the success of SmartInvite?

SmartInvite is much more effective when you partner with us to get the word out about Payactiv! Talk to your employees about Payactiv's benefits and let them know to expect their personal SmartInvite link to maximize the information your team is getting about financial wellness.
